Education

Universiti Malaysia Perlis (UniMAP)	Arau, Perlis
Bachelor of Electronic Engineering Technology (Electronic Network Design) with Honours	Oct 2022 - Sep 2026
CGPA: 3.47	
Relevant Coursework: Programming for Networking, Database Management System, Embedded Software Technology, Network Security Technology, Cloud Infrastructure and Services.	
Universiti Malaysia Perlis (UniMAP)	Arau, Perlis
Diploma in Engineering (Computer Engineering)	Jun 2019 - Jun 2022
CGPA: 3.14	
Relevant Coursework: C Programming, Object-Oriented Programming, Operating System.	

Experience

IT Technical Intern	Kota Damansara, Selangor
VSTECs KU Sdn. Bhd.	Mar 2026 - Aug 2026
- Supported mass imaging, BIOS setup, verification, and deployment preparation for 900+ HP desktops, 300+ HP notebooks, and about 190 ASUS notebooks. - Deployed teacher devices across Putrajaya and Pahang, including antivirus installation, asset labelling, device checks, and handover documentation. - Troubleshooted imaging, boot, and hardware issues while maintaining inventory, serial-number, FAT/FPP/SPP, and project close-out records.	
Junior Technician	Petaling Jaya, Selangor
Wevo Technology Sdn. Bhd.	May 2022 - Sep 2022
- Configured and commissioned switches, routers, IP phones, and supporting software for new installations, ensuring systems were fully operational and deployment-ready. - Troubleshoot and resolved hardware, software, and network issues while coordinating with vendors during on-site projects, minimizing downtime and supporting timely completion.	
IT Intern	Petaling Jaya, Selangor
Wevo Technology Sdn. Bhd.	Jan 2022 - Apr 2022
- Assisted in the installation, configuration, and testing of network devices (Switches, Routers) to support the commissioning team. - Supported the technical team in diagnosing and resolving common hardware and software issues, rapidly enhancing practical troubleshooting skills.	

University Projects

Automated Social Media Content Scheduler n8n, APIs, Generative AI	Final Year Project
- Built end-to-end automation to generate, schedule, and publish content across X, Threads, YouTube Shorts, and Telegram. - Integrated a Telegram AI assistant, image generation and editing, real-time notifications, and centralized error handling.	Mar 2025 – Feb 2026
Oyster Mushroom Farm Monitoring System by Using IOT ESP32, Firebase, Telegram	Group Design Project
- Designed an IoT system for temperature, humidity, CO2, light, and water-level monitoring with automated relay control and alerts. - Built a Firebase dashboard and Telegram bot.	March 2025 – Jul 2025

Additional

Language Skills: English, Malay
Technical Skills:
- Languages: C, C++, Java, SQL, MySQL. - Tools & Cloud: GitHub, Docker, Amazon Web Services (AWS), Google Cloud Platform, n8n, Wireshark, CISCO Packet Tracer, PUTTY.
Certifications: CCNA: Enterprise Networking, Security, and Automation / Cybersecurity Essentials / Introduction to Cybersecurity / Switching, Routing, and Wireless Essentials, Cisco Networking Academy / Introduction to Networks.
